## BARIATRIC U-SLINGS

600 LB. WEIGHT CAPACITY

The Dynarex Bari-Max Bariatric U-Sling is a comfortable transfer accessory constructed from high-quality, durable fabric for optimal support and reliability. The U-Sling is designed to help move patients safely and easily to and from beds, wheelchairs, and other surfaces.

- Made from durable polyester for optimal support
- Smooth material helps prevent chafing for improved comfort
- U-shaped for convenient sling removal when patient is in a wheelchair or bed
- Reinforced hook straps allow for balanced connection to spreader bar
- Back strap allows for easier repositioning
- 10745XL: Features full head support for patients with limited upper-body strength
- HCPCS: E0621
