

BD Eclipse™ needle

Safety made simple

Providing streamlined and effective injection safety

The BD Eclipse needle is easy to use with minimal training, and supports streamlined and cost effective compliance for every practitioner, every day.

- Allows for shielding of the needle tip immediately after injection, with a single finger stroke.
- Activation that requires virtually no change in clinical technique for easy integration.
- Specifically designed to reduce the risk of accidental needlestick injuries.
- Audible click confirming activation to support your safety.
