

Integra[®] Miltex[®]
Dermatology Instruments

Integra facility
Rietheim-Weilheim, Germany

Limit uncertainty with quality instruments from the brand you trust

For more than 50 years, Integra Miltex has established itself as one of the largest and most respected suppliers of hand-held surgical instruments. Today, Integra Miltex operates as a business unit of Integra LifeSciences Holdings Corporation (“Integra”). Integra is a diversified medical technology company that develops, manufactures, and markets medical devices for use in a variety of applications.

Integra Miltex, through Miltex GmbH in Rietheim-Weilheim, Germany, continues to employ the skills of the finest instrument craftsmen in the world. The surgical ‘feel’ of our instruments, superb cutting ability, and smoothly beveled box locks are just a few features that define our quality and performance.

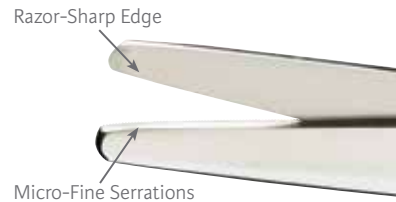

This brochure represents a comprehensive offering of specialty instruments from Integra for the dermatologist. The selection includes premium SuperCut, Tungsten Carbide and Ceramic Coated scissors as well as a variety of forceps, needle holders, dermal curettes, hooks, extractors, disposable products, and care & handling solutions.

Integra® Miltex®

Specialty Scissors

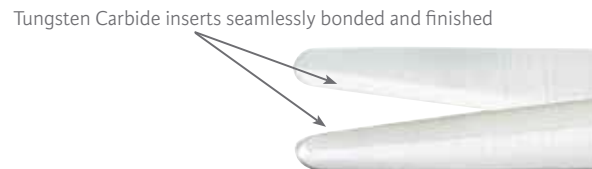

Integra Miltex SuperCut Scissors

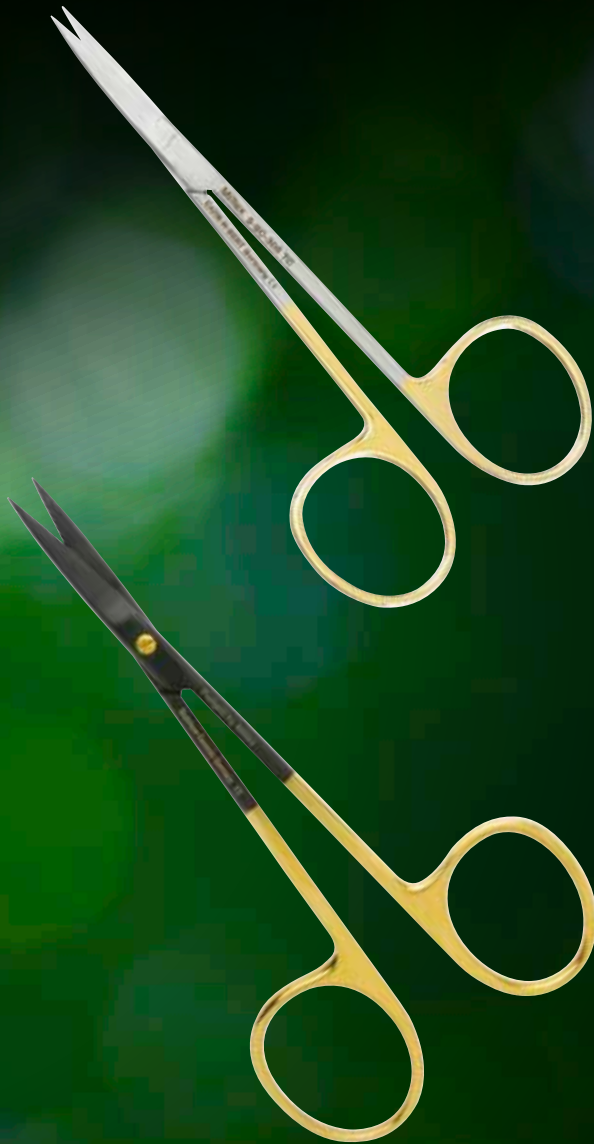

SuperCut scissors feature a razor-sharp upper blade and a lower blade with micro-fine serrations to hold tissue in place and help prevent slippage. Integra Miltex SuperCut scissors have two black ring handles for easy identification.

Integra Miltex Tungsten Carbide Scissors

These premium, stainless steel scissors, identified by two gold ring handles, have tungsten carbide inserts seamlessly bonded to the blades. Tungsten carbide scissors offer precision cutting performance and durability.

Integra Miltex SuperCut/Tungsten Carbide Scissors

Durability and precision cutting performance come together without compromise in SuperCut/Tungsten Carbide scissors, identified by one short and one long gold ring handle.

Tungsten Carbide insert honed to a razor-sharp edge

Tungsten Carbide insert with micro-fine serrations

Integra® Padgett® Ceramic Coated Scissors

Padgett ceramic scissors offer a threefold design that combines our SuperCut blade design with ceramic and tungsten carbide materials. The result is lasting cutting performance - approximately 81% longer than standard stainless steel scissors.

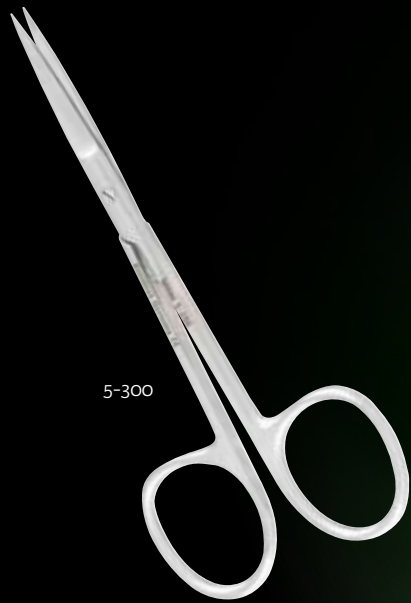

Tungsten Carbide insert honed to a razor-sharp edge
