

Hot/Cold Therapy & Clinic Supplies

## Introduction

Chattanooga is the world's largest manufacturer of rehabilitation equipment for treating musculoskeletal, neurological and soft tissue disorders. For over six decades, Chattanooga has set a benchmark for leadership, reliability and excellence. Our products contribute to better treatment outcomes in hospitals, clinics and home settings worldwide. We lead the rehabilitation industry by example, and through continuous innovation, provide real world solutions for clinicians and their patients.

As the world's leading brand in rehabilitation, Chattanooga is sold in over 80 countries worldwide. Chattanooga distributors and customers are supported by a highly trained and seasoned team of personnel who oversee new product development, product training and education, order placement, product delivery, and after sales service in addition to providing dedicated sales and marketing support.

Chattanooga is a brand of DJO Global Inc. DJO Global provides solutions for musculoskeletal health, vascular health and pain management. Our products help prevent injuries or rehabilitate after surgery, injury or from degenerative disease, enabling patients to regain or maintain their natural motion.

## Hot/Cold Therapy and Clinic Supplies

A world wide leader in therapeutic products, Chattanooga offers a diverse selection of high quality hot/cold therapy and clinical rehabilitation supplies. Chattanooga is the proud inventor of the original Hydrocollator HotPacs and heating unit, an all natural product that was first to market more than 60 years ago, and is still the first choice of physical therapists and other medical professionals when using heat therapy. The HotPac generates deep moist heat which delivers increased advantages over dry heat to relieve chronic pain, acute muscle strains and general musculoskeletal discomfort. Chattanooga also sets the standard in cold therapy with the original ColPac, which come in a variety of shapes and sizes. Chilling units are also available for convenient storage and efficient cooling. For precise measurements; hand dynamometers, goniometers, pinch gauge, and calipers are all available. For athletic training rooms and physical therapy clinics; carts, stools, lotion, and electrodes can all be ordered. Combining industry leading hot and cold therapy products with clinic supplies, Chattanooga can meet any clinics needs.

## Hydrocollator® Mobile Heating Units

# Hydrocollator® Stationary Heating Units

## Hydrocollator Accessories

### Wall Mounted Towel Rack

Six hooks extend 13" (33 cm) from wall. Measures 2" x 33" (5 cm x 84 cm).

### Side Table Rack

Stainless steel work surface and two wire shelves add efficiency to units. Use with M-4, M-2 and SS-2.

### Mini Non-Electric Lotion Warmer

Hangs on the front of the Hydrocollator E-1 or E-2 heating unit and uses the unit's warmth to keep lotion or gel at a comfortable temperature. Bottles are not included.

### TM-1 Electric Lotion Warmer

Easily attaches to any treatment table or wall to keep massage lotion or ultrasound gel at a comfortable temperature and within reach. Bottles are not included.

Large capacity and fast chilling time means your patients will never have to wait for a ColPac. The ColPac Chilling Units help you keep pace throughout a busy day. No plumbing required, simply plug into a standard electrical outlet.

### Features

#### ColPac Chilling Unit

- Closed-cell foam insulation for efficiency
- Stainless steel, welded construction for long life
- Heavy-duty compressor for more efficient cooling
- Specially designed interior chilling coils cool packs faster
- 3-inch (8 cm) swivel-type rubber casters for silent, friction-free movement of mobile units
- Drain valve for easy cleaning and defrosting
- One-year warranty

#### ColPac Freezer

- Five cubic feet of spacious capacity
- Four durable stainless steel shelves
- Comes complete with trays and cup holders
- Shipped with 12 standard size ColPacs
- UL listed and cUL listed
- One-year warranty

# ColPac®, Boo-Boo Pac™, FlexiPac®, Sport-Pac™

Seven different sizes of blue vinyl and four sizes of black polyurethane ensure effective cold therapy for any body area or shape.

## Features

### The Original ColPac

- Designed for heavy clinical use.
- Effective pain relief
- Filled with a non-toxic silica gel that remains pliable throughout treatment
- Delivers up to 30 minutes of soothing relief from acute pain, swelling and fever
- Latex free
- One-year warranty

### boo-boo pac

- Fun, bear-shaped design especially made for kids
- Ideal for pediatric applications
- Filled with non-toxic silica gel
- Delivers up to 30 minutes of soothing relief from acute pain, swelling and fever
- Shipped in a display box containing 12 packs

### FlexiPac

- Freezable to provide penetrating cold therapy
- Microwavable for soothing heat
- Flexible gel conforms to any body contour at any temperature

### Sport-Pac

- Soccer ball design is ideal for youth sport applications
- Easily transferred from the freezer to the team cooler for sideline use
- Delivers up to 30 minutes of effective cold therapy for acute pain due to strains, sprains and bruises
- Shipped in a display box containing 10 packs

# Theratherm® Digital Moist Heat Pack

Theratherm Digital Moist Heat Pack provides intense, moist heat therapy for temporary relief from pain associated with arthritis, back pain caused by muscle spasm and inflammation caused by strain and tension. Its flannel cover draws moisture from the air and as the pack's temperature rises, the moisture is released onto the skin, speeding relief to your patients. Its unique, easy-to-use digital control is convenient and safe.

**Features**

**Theratherm Digital Moist Heat Pack**

- Convenient preset time and temperature
- Digital hand control for operator to program and monitor temperature and/or treatment time
- Lockout mode protects against inconsistent setting changes throughout treatment sessions
- Moist heat therapy temperatures range from 88° to 166° F (32° to 74° C)
- Treatment sessions up to 60 minutes
- Specially designed flannel cover for efficient moisture retention
- UL and cUL classified
- One-year warranty

## Saunders® Total Back Exercise Device

## Features

## Saunders® Total Back Exercise Device

Promotes strength, flexibility and coordination through controlled functional exercise

- Pelvic stabilization allows isolation of lumbar extensors in any range of motion
- Adjusting the table angle allows either mild exercise in a pain free range, or intense conditioning
- Angle of recline reduces the load on the spine by 20% to 30% and allows for spinal positions in flexion, extension or side lying though a range of 110°
- "Side sit-ups" are great for the obliques, transversus abdominus, multifundus, quadratus lumborum and erector spinae muscles
- Includes a full-size wall poster feature 28 numbered exercises

# Stabilizer™

## Features

### Stabilizer™

The Stabilizer Pressure Biofeedback unit gives valuable information to ensure quality and precision in exercise performance and muscle testing. It allows the clinician and patient to determine if the patient is able to selectively isolate and maintain contractions of the cervical or lumbopelvic core stabilization muscles. The measuring range is 0-200 mmHg analog pressure with an accuracy of +/- 3 mmHg pressure.

- Use with exercise to protect and stabilize joints
- Prevent and treat low back and neck pain
- Improve core stabilization exercises
- Enhance home exercise programs

Hydraulic Pinch Gauge	
43051	50 lbs (23 kg) Dial Gauge
Skinfold Caliper	
43063	Skinfold Caliper

## Chattanooga Hydraulic Hand Dynamometer

### Features

#### Hydraulic Hand Dynamometer

- Gives accurate grip strength readings without being able to "feel" the handle move
- Dynamometer accurately measures grip strength up to 200 lbs (91 kg)
- Adjustable handle with five positions to accommodate any hand size
- Indicator remains at maximum reading until reset
- Includes carrying case
- One-year warranty

## Chattanooga Hydraulic Pinch Gauge

### Features

#### Hydraulic Pinch Gauge

- Reliably and accurately register up to 50 lbs (23 kg)
- Measures all pinch tests (tip, key and palmer)
- Includes carrying case
- One-year warranty

## Chattanooga Skinfold Caliper

### Features

#### Skinfold Caliper

- Constructed of lightweight aluminum
- Large 60 mm scale is easy to read
- Measurement arms and "floating tips" assure accurate and reproducible results
- Includes carrying case, booklet and body fat percentage tables
- One-year warranty

## Chattanooga 3-Piece Hand Evaluation Set

### Features

#### 3-Piece Hand Evaluation Set

- All the instruments necessary to evaluate strength and range of motion for hand and finger
- Hydraulic Hand Dynamometer
- Hydraulic Pinch Gauge (50 lbs/23 kg)
- Stainless steel finger goniometer
- Includes carrying case
- One-year warranty

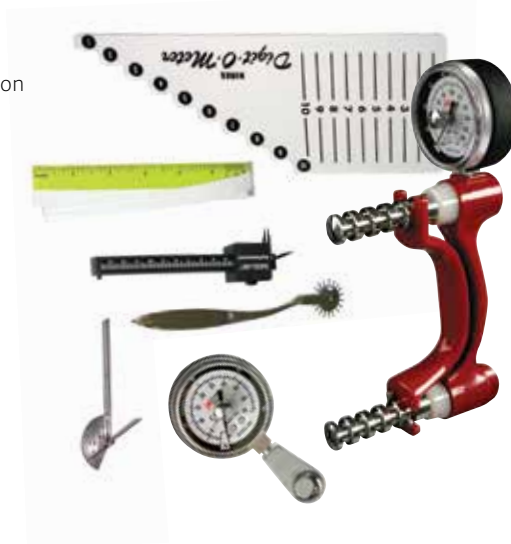

## Chattanooga 7-Piece Hand Evaluation Set

### Features

#### 7-Piece Hand Evaluation Set

- All instruments needed for a full hand evaluation
- Hydraulic Hand Dynamometer
- 2-point discriminator with 3rd point
- Finger circumference gauge and finger motion gauge
- Wartenburg pinwheel
- Hydraulic pinch gauge registering up to 50 lbs (23 kg)
- Stainless steel goniometer
- Digit-O-Meter
- Includes carrying case
- One-year warranty

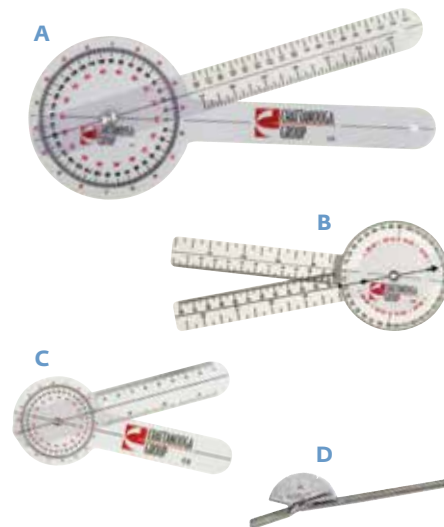

## Chattanooga Goniometers

### Features

#### Goniometers

- The plastic 360° scale ISOM (International Standards of Measurement) goniometers (A, B, C) have a head with three scales calibrated for use with the ISOM system. The clear plastic permits observation of the joint's axis of motion and range of motion
- The stainless steel finger and small joint goniometer (E) measures the range of motion of finger joints (metacarpophalangeal and interphalangeal) and other small joints including toes. The head has two opposing 180° scales, which are marked in 5° increments
- All goniometers have a linear scale in inches and centimeters
- One-year warranty

660087-002	Small	34"-40"	11"-13"
660087-003	Medium	38"-42"	13"-15"
660087-004	Large	42"-46"	14"-17"
660087-005	X-Large	45"-51"	15"-17"

### Features

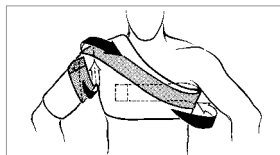

#### Sully® Shoulder Support

On the outside, elastic straps attach with hook to the neoprene at any point, in any direction, and with any amount of force you choose. You can functionally stabilize, assist or restrict movement according to the specific needs of each athlete.

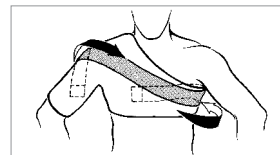

On the inside, the perforated, breathable, rubber-like neoprene grips the skin so the support moves with the athlete. It's as if the stabilization straps are attached directly to the body.

The Sully comes complete with a highly adaptable, bifurcated neoprene strap, and two additional 4" neoprene straps. Worn by professional and amateur athletes in all sports! Measure biceps in a non-flexed position.

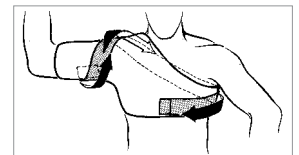

### Multiple Applications

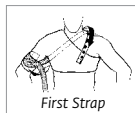

Posterior Instabilities

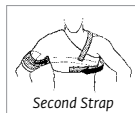

Muscle Strains (pectoral etc.)

Rotator Cuff Deceleration

First Strap

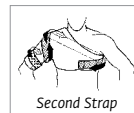

Second Strap

Anterior Instabilities

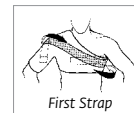

First Strap

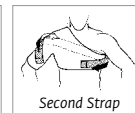

Second Strap

Inferior Instabilities

# Gels and Lotions

## Features

### A Ultra-Myossage® Lotion

Formulated with aloe vera, this top quality lotion is ideal for massage or as an ultrasound coupling agent. No menthol, hexachlorophene or polysorbates. Hypoallergenic, water-soluble and greaseless.

### B Myossage® Lotion

Soothing, effective alcohol-free, non-greasy and non-staining lotion.

### C Utility Straps

A versatile black webbed strap, available in three lengths. Use as a transfer belt, an extension for the EZ-ON traction harness belts, or as shown to assist manual cervical traction.

### D Nylatex Wraps

- Ideal for holding cold packs in place
- Several sizes available
- Reusable

Note: all quantities are 10 packs of 4 each, 40 per case, unless otherwise stated

## Dura-Stick® Premium Self-Adhesive Electrodes

**Features**

**Dura-Stick® Premium Self-Adhesive Electrodes**

- 10 packs of 4 each, 40/case unless otherwise noted
- Cloth Backing
- Stainless steel mesh
- Choice wire and molded connectors
- Provides optimal current dispersion with low impedance

## Dura-Stick® Self-Adhesive Electrodes

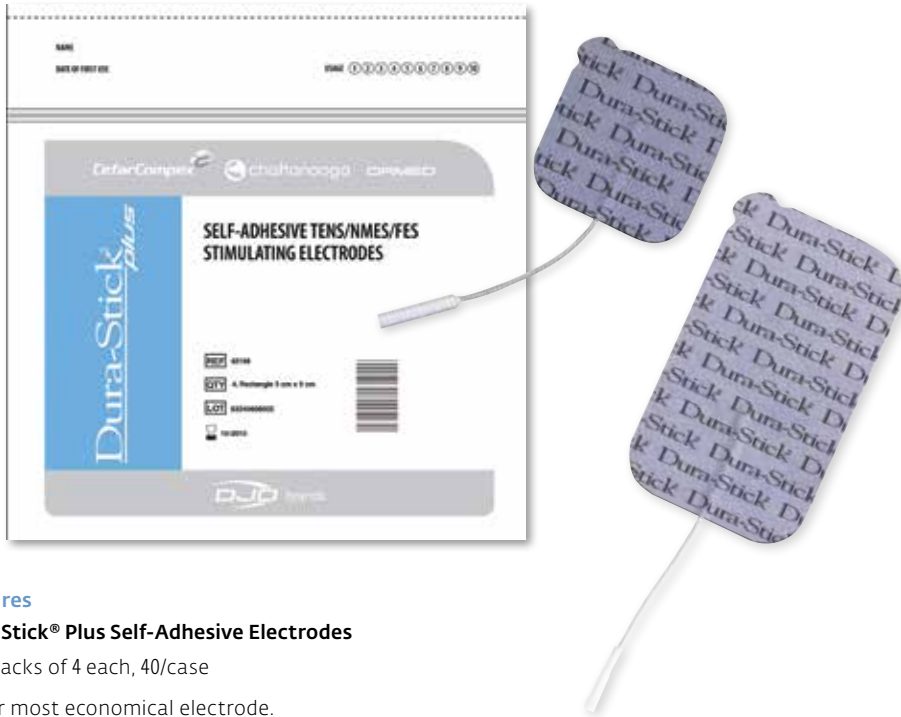

**Features**

**Dura-Stick® Self-Adhesive Electrodes**

- 10 packs of 4 each, 40/case
- Carbon silver film layer incorporated into a low profile design
- Cloth backing for increased "stretchability" and memory
- Innovative polymer for improved adhesion and durability

## Dura-Stick® Plus Self-Adhesive Electrodes

### Features

#### Dura-Stick® Plus Self-Adhesive Electrodes

- 10 packs of 4 each, 40/case
- Our most economical electrode.
- Permagem™ Hydrogel for superior conformability to body contours
- Blue foam backing
- Carbon conductive film incorporated into a flexible spun lace backing
- Flexible and sturdy design for durability and ease of use

## Dura-Stick® Disposable Electrodes

### Features

#### Dura-Stick® Disposable Electrodes

- 40/Package
- Multi-day™ electrode for extended use
- May be used for 2-5 days
- Solid gel center surrounded by adhesive
- Beige mesh backing, looks like a bandage
- Dispose of when finished
