

premium exercise mats

CanDo® Sup-R Mats®

exercise

- high quality closed-cell foam exercise mats are tough enough for clinics, schools and fitness centers
- mats float in water and can be used for hydrotherapy (do not use as life saving device; when in water always use with adult supervision)
- mats can be hung for storage with rubberized grommets (except for the 40" wide mats)
- thick mats have a soft cushion feel
- closed-cell NBR foam provides excellent elasticity, energy absorption and resistance
- mats are ribbed on both sides for anti-skid traction when in use, and ventilation when in storage
- treated with anti-microbial material
- phthalate, triclosan and latex-free
- mats are tear proof and scratch resistant and do not take a compression set
- floor rack can hold 2 widths at the same time!

storage racks to hang mats

| | | |
|---------|---|--------|
| 32-1492 | wall rack, holds 5 mats, 43"L x 8"H x 16"D | 40.00 |
